CONTENTS OF VOLUME 16

No. 1, January 1989

Editorial 1

Lung centroid pressure in immersed man
N. A. S. Taylor and *J. B. Morrison* 3

Venous gas embolism: time course of residual pulmonary intravascular bubbles
B. D. Butler, S. Luehr, and *J. Katz* 21

Nerve conduction velocity in man during deep diving to 360 msw
K. Todnem, G. Knudsen, T. Riise, H. Nyland, and *J. A. Aarli* 31

EEG power spectra in rats during compression and during pentobarbital infusion at pressure
R. Ursin, K. Furset, and *L. Aanderud* 41

Review Article

Tissue gas exchange models and decompression computations: a review
B. R. Wienke 53

Abstracts

French translations 91
Spanish translations 93
From current literature 96

No. 2, March 1989

Sodium valproate interactions with the HPNS: EEG and behavioral observations
P. C. Pearce, D. Clarke, C. J. Doré, M. J. Halsey, N. P. Luff, and *C. J. Maclean* 99

Failure to find residual memory deficits in monkeys after repeated HPNS
W. H. Overman, R. W. Brauer, and *E. R. Burke* 115

Nitrogen narcosis and ethyl alcohol increase the gain of the vestibular ocular reflex
K. Hamilton, B. Fowler, J. Landolt, and *G. Porlier* 129

Cochlear degeneration in minipigs after repeated hyperbaric exposures
M. K. Wilkes, A. C. Palmer, P. C. Pearce, N. P. Luff, M. J. Halsey, and *I. M. Calder* 139

Effects of hydrostatic pressure, H_2, N_2, and He, on beating frequency in rat atria
M. Gennser and *H. C. Örnhagen* 153

Methyl prednisolone in the treatment of acute spinal cord decompression sickness
T. J. R. Francis and *A. J. Dutka* 165

Abstracts

French translations 175
Spanish translations 178
From current literature 180

No. 3, May 1989

Influence of heliox, oxygen, and N_2O-O_2 breathing on N_2 bubbles in adipose tissue
O. Hyldegaard and *J. Madsen* 185

Testing of revised unlimited-duration upward excursions during helium-oxygen saturation dives
E. D. Thalmann 195

Respiratory depression by analgesics at 41 bar
K. Furset, L. Aanderud, and *I. Tyssebotn* 219

Effect of brief, repeated hyperbaric exposures on susceptibility to nitrogen narcosis
W. H. Rogers and *G. Moeller* 227

Neuropsychologic effects of saturation diving
R. J. Værnes, H. Kløve, and *B. Ellertsen* 233

Pressure-dependent changes in the release of GABA by cerebrocortical synaptosomes
S. C. Gilman, J. S. Colton, and *A. J. Dutka* 253

Abstracts

French translations 259
Spanish translations 262
From current literature 265

No. 4, July 1989

Editorial: Alcohol and bends 269

Ethanol treatment for acute decompression sickness in rabbits
L-D. Zhang, J-F, Kang, and *H-L. Xue* 271

Effects of intravenous perfluorocarbon and oxygen breathing on acute decompression sickness in the hamster
P. R. Lynch, L. J. Krasner, T. Vinciquerra, and *T.H. Shaffer* 275

Analysis of some individual risk factors for decompression sickness in Hong Kong
T. H. Lam and *K. P. Yau* 283

Hyperbaric He But not N_2 augments Ca^{2+}-dependent dopamine release from rat striatum
M. L. Paul and *R. B. Philp* 293

Inspiratory flow limitation in divers
V. Flook and *I. M. Fraser* 305

Technical Report

Changes in insulation of wetsuits during repetitive exposure to pressure
K. Monji, K. Nakashima, Y. Sogabe, K. Miki, F. Tajima, and *K. Shiraki* 313

Book Review: The high pressure nervous syndrome and performance 321

Letter to the Editor 323

No. 5, September 1989
Proceedings of a Symposium

Adaptation to Asphixia: Lessons from Diving Animals
A FASEB-Sponsored Symposium Held in New Orleans, 23 March 1989

Perspectives in diving and asphyxia
R. Elsner 339
Adaptations to deep breath-hold diving: respiratory and circulatory mechanics
D. E. Leith 345
Behavior of freely diving animals
M. A. Castellini and *G. L. Kooyman* 355
Arterial gas tensions and hemoglobin concentrations of the freely diving Weddell seal
W. M. Zapol, R. D. Hill, J. Qvist, K. Falke, R. C. Schneider, G. C. Liggins, and *P. W. Hochachka* 363
Molecular mechanisms of defense against oxygen lack
P. W. Hochachka 375
Mechanism of tolerance to renal ischemia in harbor seal: role of membranes
S. K. Hong 381

Research Paper

Effect of peripheral temperature on the formation of venous gas bubbles
I. B. Mekjavić and *N. Kakitsuba* 391

Book Review: Dive computer workshop 403

Abstracts

French translations 405
Spanish translations 408
From current literature 411

No. 6, November 1989
Editorial: Are we a network? 413

Effects of hydrostatic pressure and inert gases on twitch tension
M. Gennser and *H. Ch. Örnhagen* 415
Fluid and cation changes during head-out immersions in 25° and 35°C water
P. A. Deuster, T. J. Doubt, C. J. Ryan, L. C. Montgomery, and *K. J. Haberman* 427
Arterial gas embolism as a pathophysiologic mechanism for spinal cord decompression sickness
T. J. R. Francis, G. H. Pezeshkpour, and *A. J. Dutka* 439
Induction of platelet aggregation in vitro by microbubbles of nitrogen
T. Thorsen, R. T. Lie, and *H. Holmsen* 453
Treatment of type I decompression sickness using the U.S. Navy treatment algorithm
J. W. Green, J. Tichenor, and *M. D. Curley* 465

Technical Communication

Body cooling with ice for warm-water diving operations
I. Holmér 471

Abstracts

French translations 481
Spanish translations 485
From current literature 489

Reviewers 491

Contents of Volume 16 493
